

2022

Company Profile

SUPROS¹
thermal insulation products

Supplying thermal insulation products to the
petrochemical industry worldwide

We are saving energy and warm
relationship for our customers

Supros Who We Are?

Established in 2019

Headquarters Atyrau, Kazakhstan

Team Company Senior Management have 30 years of combined experience in field of Industrial Services

Partners We offer the most advanced and proven solutions through international partnerships across the world

Experience 200+ containers of materials delivered to Projects

Projects KPO KGDBN, TCO FGP, TCO Base Operations, NCOC Onshore and Offshore Facilities

Company Purpose

Our unique combination of consulting, knowledge, assurance and regulatory services makes organization more resilient, and in turn inspires trust in their products, systems, services, and the world we live in

Our Purpose: to inspire
trust of our clients

Our Mission and Vision

MISSION **Professionals on the field**

Deliver superior service to our customers around the world and provide innovative **supply solutions** to enhance our customers' operations

Vision **Direct to the Future**

Be the world's leading **provider supply chain service** and solutions to the energy and industrial markets

Our Core Values

Core values are personal ethics or ideals that guide us when making decisions, building relationships, and solving problems. Identifying the values that are meaningful to us helps to develop and achieve our goals

**We are looking for partners that align
with our ideals**

Clients Satisfaction

A satisfied customer, our greatest asset, our source of income, where we strive for excellence

You can count on us, doing the job right - is personal aim to us. We are creative problem-solvers with deep technical expertise. We expedite accurately every step of the trusted project and keep you updated on time. If you cannot make your timelines we don't make ours

Be Kind
Do the right thing

Be Honest
Keep your word

Be Smart
Make things better

Industry Sectors

We offer wide solution at insulation industry sectors. Our power is to analyze the key issues and driver three industry sectors, offer the services, standards and solutions

Oil and gas industry

Extraction, processing, transportation, storage and sale - oil and related oil products

Industrial power

Processing, use, generation of energy resources to create a certain type of energy

Construction industry

Large-scale construction (hydroelectric power plants, industrial facilities, factories)

Our Services

**Engineering, Supply
and Construction**

Engineering and Project Calculation

Our calculation service is designed to make industrial insulation projects, such as factories and processing plants, easier

Supply of Materials

Products in our range are professional solution for HVAC and industrial insulation

Industrial Insulation Services

Our experts are providing professional thermal insulation service, metal cladding and electrical cabling services to industrial use

Our core scope of business is full insulation service which helps organizations work better. Starting from project calculation, material supply and construction services

01.

Our Services

Engineering and Project Calculation

Experience founded by Years

You get the most comprehensive package in existence for completing your insulation project efficiently. In addition, you get savings due to everything being supplied from the same company. Your resources, funds, and time are freed up for managing other aspects of the construction project

Estimation

Project calculation and dimensioning

Support

Technical support at the procurement stage

IT

Developing friendly APP isometries based

Our Services

Supply Chain Department

The products of our supply are trusted brands for HVAC and industrial insulation projects. We supply sheet metal claddings, base structures and corrugated sheet metal products. We also sell technical insulation products (stonewool and elastomeric, for example) and raw material products, such as sheets and coils

Our product range also includes installation of equipment and tools. Our products meet standard requirements of industry and construction policies

PAROC products will boost your plant's sustainability, creating an energy-efficient and fire-safe environment

SS Ancillaries form an integral part in the performance of an insulation system because if the ancillaries fail, then eventually so will the entire system.

Foamglass is high-performance insulation solutions for waterproof buildings, industrial installations, marine and HVAC applications

Industrial adhesives, industrial coatings, industrial sealants and specialty materials

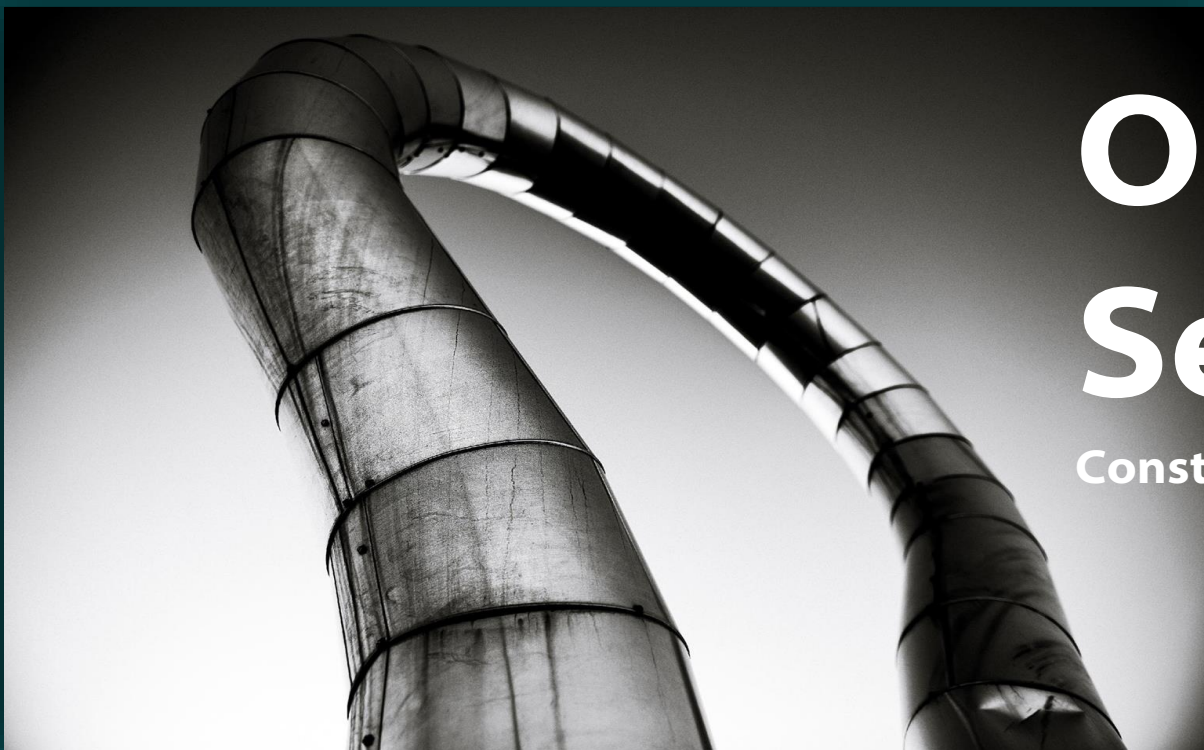

Aluzinc and stainless steel jacketing, sheets, and elbows to protect thermal insulation used in a variety of applications

Flexible foam for equipment insulation and a leading provider of engineered foams

Supros Development

Historical Achievements

Industrial Insulation Improves Productivity

Supros provides a broad range of insulation that are available in a wide variety of materials from today's leading manufacturers to fully meet even the most complex and unique requirements

Our expert support team provides the fast turnaround times that fit your unique insulation modification requirements

Supros Achieved

More than 300 trucks of Paroc Minwool

Completed more than 25 Projects

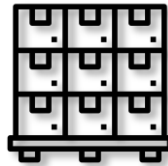

Available Stock for the 2 mln. USD

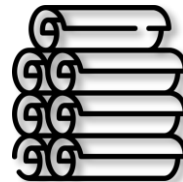

Supplied more than 1 000 tons of Jacketing

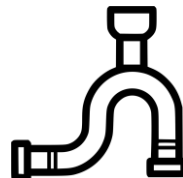

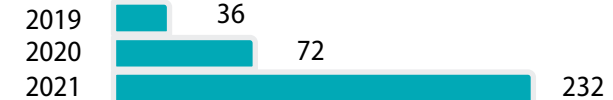

Trucks With Min wool Delivered

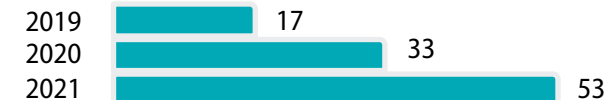

Pallets with Material Delivered

Aluzinc/ Aluminium Jacketing Delivered, tons

Length of Tubes are insulated, km

Supros Engineering & Supply Worldwide Partner

Supros Engineering & Supply is distributor of biggest Insulation brand in the world. From our head office in Kazakhstan, we can supply products and perform services to multiple sectors that span over 10 countries worldwide. There is no limit to our reach as we continue developing along with growing markets and territories

We supply products which diverse wide assortment of industries including oil and gas, automotive, chemical and construction

We are constantly sourcing innovations with our extensive range of suppliers to offer products and solutions that are not only unique in design but competitive in pricing

Everything for Insulation

We are dedicated to support you worldwide. We offer a variety of products and services, let us know what your project needs

Stone wool insulation is nature's own invention; harnessed for industrial use for more than 80 years. When the volcano erupts, the molten stone is fiberized by the wind on the slopes of the mountain.

FOAMGLAS® cellular glass insulation is a light weight, rigid and durable insulation material, composed of millions of completely sealed glass cells.

The Thermal Ceramics business of Morgan Advanced Materials makes advanced ceramic products and systems for thermal insulation in high temperature environments.

Industrial Procurement Solutions are stockists and suppliers of thermal and acoustic insulation materials to the oil and gas industry.

Production Localization Plan

Increasing competition within insulation business segments forces our company to find the most beneficial way to manufacture their products for a local market. Relocations of manufacturing justified mainly due to reduction of cost and develop Kazakhstani content.

A

Set the technology production of Grooved slab from Min wool, Foamglass pipe section, SS Support rings.

B

Agreed to cooperate with strategic partner Newtech System Group (NSG) to combine our knowledge of insulation and production capacity of the partner

C

Signed principal, exclusive contract with NSG as a partner for production, who already has setted Aluzinc and thermal Jacketing production in KZ.

Local Content

Supros Local Production Result

Knowledge and skills transfer on quality Product manufacturing

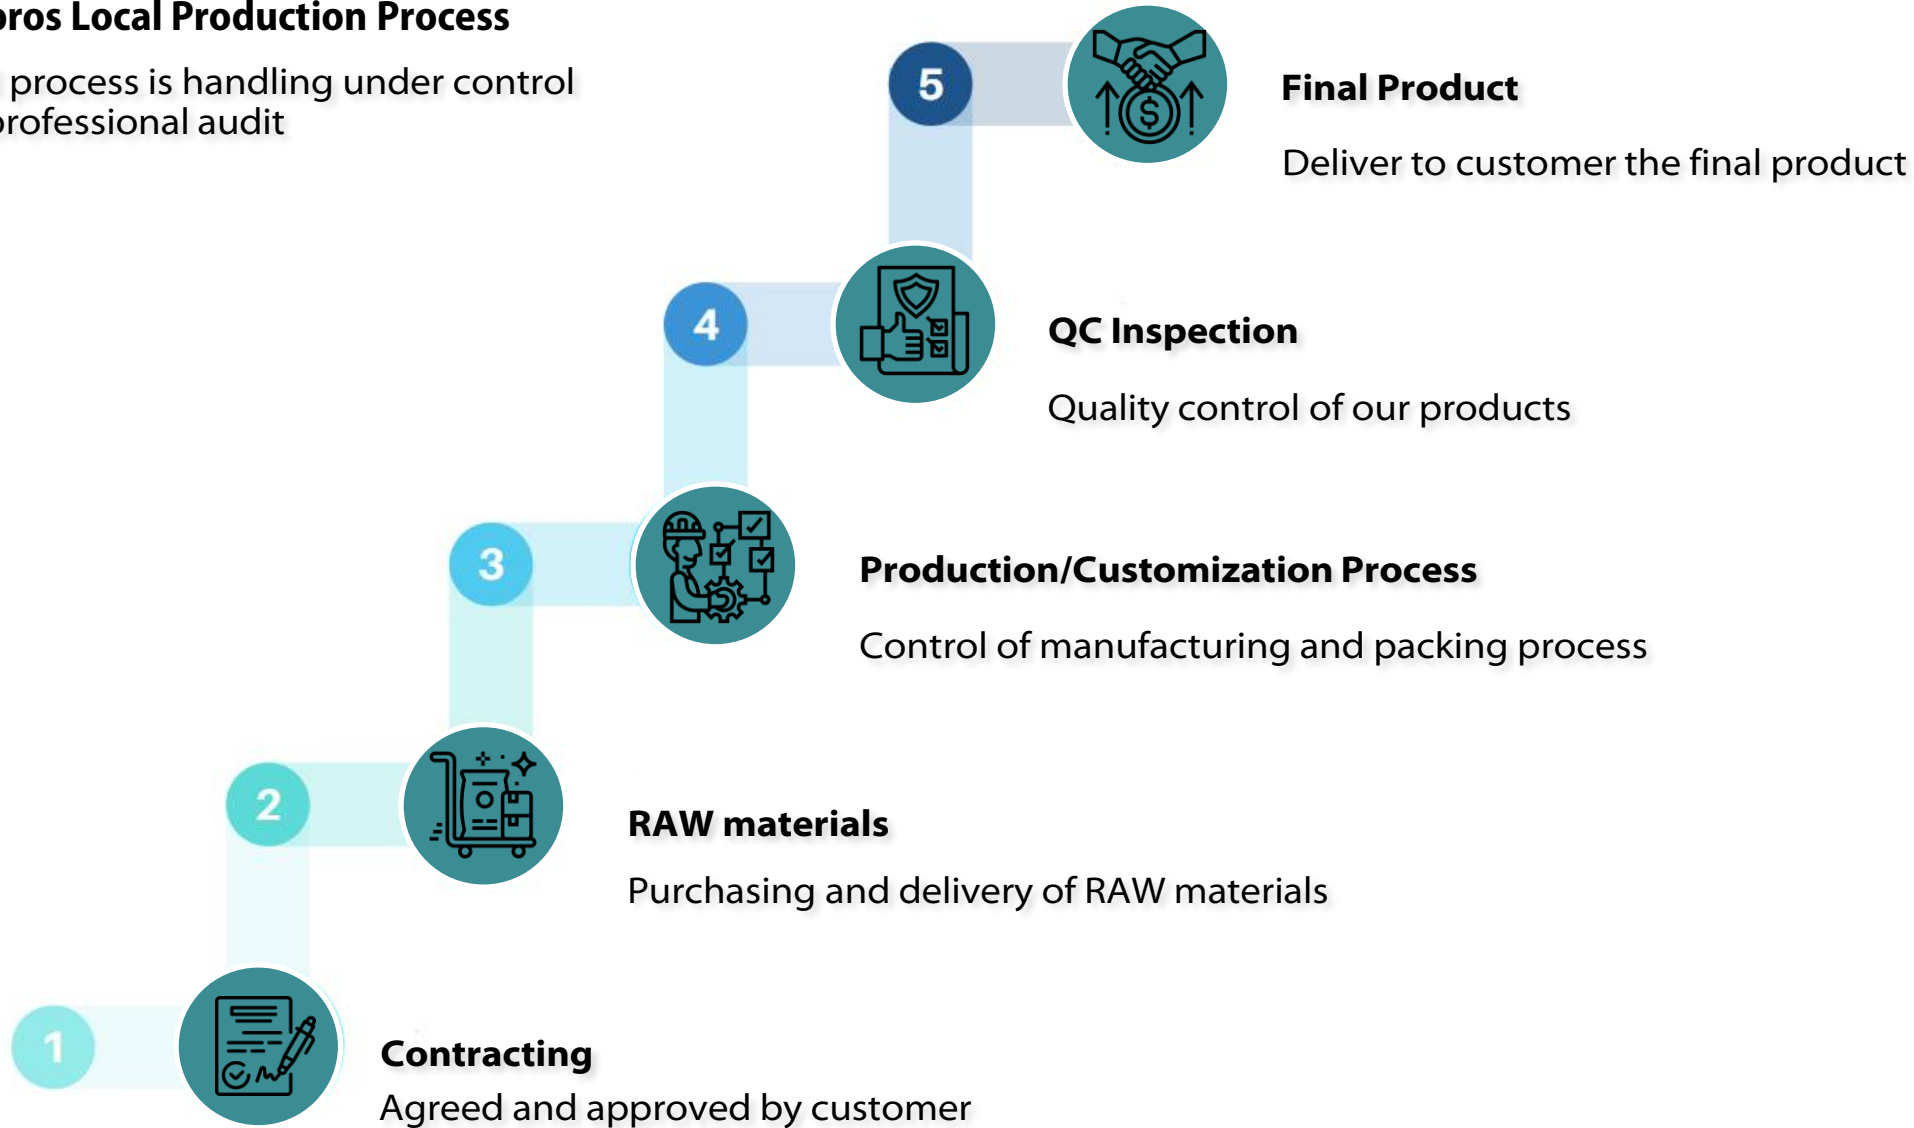

Local product value was increased since production setted in KZ.
More than 500 Mln. KZT was spent for local manufactured materials.
Manufacturing fully comply to the highest TCO/NCOC/KPO Standards.

More than 30% of total sales was produced locally in 2021
577 mln. KZT was produced in KZT, CT-KZ Certified

Supros Local Production Process

Full process is handling under control of professional audit

Our Projects

Our expert craftsman are skilled in the trade of Industrial Insulation application, and Installation, and can help you meet your specification needs.

Supros can provide your project the peace of mind that all personnel working on the project will be working safely and productively. Contact us today to learn how our experts can serve you.
